

Clay Aiken Pin Statistical Database

It all started back in 2004 when a little souvenir lapel pin, which we now call the 2004 Maine Pre-Party pin, was traded among Clay Aiken fans at a pre-concert party prior to one of Clay's concerts on his solo tour. Little did anybody know, this little pin would start a craze that has grown to nearly 2,000 pins (and counting).

Through the design and production of these pins, a "pin community" began forming on The Clayboard (what most consider the original "home" of the Claynation), and lifelong friendships started blooming. Anticipation grew with each new pin released and more and more fans started trying their hands at designing. The pins were designed in different sizes and shapes, as well as, in different methods. There are pins that are smaller than an inch to as big as 3 inches. The creativity of the designers was endless.

What I have tried to do here is "commemorate" and "record" the history of the pin craze from the beginning to the present. Through years of research and time consuming work, I hope that what I have presented here is a lifelong treasure to the pin community.

In this database, you will find stats about each pin, as well as, some fun facts and trivia that maybe you didn't know. Again, this is a work in progress. It has taken A LOT of research to gather what I have listed. Thank you to those who have helped in my research. Your help is indispensable. I realize there could very well be some glaring mistakes also. If you see these errors, please do not hesitate to contact me. There are also lots of empty "holes" of missing information that need to be completed. If you can help "fill in the blanks", please contact me with the info.
